

Secretary's Message

Dear **Esteemed IAGES Member,**

Warm greetings from IAGES!

I am immensely delighted to wish each one of you, those who have re-energized with new feathers to your crown and those who have been working to mark your significant achievement in the IAGES. I am Dr. Sivakumar and I am honored to be part of this big family of IAGES as a Honorary Secretary.

We have been part of this association for such a long time and marching towards a common goal with the collectively produced ideas and action plans. I am certain that we would work "together to take IAGES to next level".

I reiterate focusing on "**knowledge sharing**" is absolutely essential in the present scenario because we have witnessed numerous changes in varied fields- technology, trade and commerce, industry, medical tourism and in fact unraveled symptoms of common diseases. Therefore, medical fraternity needs to strive endlessly to strengthen the training programs, develop skill beyond technology and opportunities to equip the upcoming medical graduates where they can fulfill their vision for the future.

I earnestly encourage all friends and colleagues to become part of IAGES, actively engaging in the diverse fellowship programs. I solemnly assure to upcoming postgraduates that IAGES is a place where your whole life will be an extraordinary.

Together, let's "Teach and learn the latest, Learn and teach the newest".

Make IAGES Great!

Best Regards,

Dr. T. Sivakumar

Honorary Secretary, IAGES
